TAIPEI CITY HOSPITAL

市民健康 追求卓越 全人照顧

Background

Hospital cross-team medical (**mobile clinic**) to explore the hospital pharmacists, community pharmacists and community medical side of the service (health center / school / pharmacist / development association /district office - long -), the construction of a complete public drug and the implementation of drug coherent care.

Purpose

To assure patient's drug safety and medical quality.

Method

Pharmacists involved in the medical team to visit the organization (disability to the same vulnerable groups), the intervention by the pharmacist: the establishment of disability as the center of the medical system, strengthen the network system, the implementation of referral system; continued to the hospital medical visit services to improve safe medication Environment, assist in medication guidance and reduce inappropriate medication.

Results

In 2016, pharmacists to provide a total of 316 person-time services for the disabled groups. Pharmacists to receive disability, medication use assessment and proposed drug safety recommendations, a total of 364 drug treatment problems were found. Among them, "Reminders of side effects" and "should monitor drug blood concentration (TDM)" are 56 (15.91%); Duplicate medications 16 (4.55%); "Proposed replacement other medicine" and "improper dosage form" are 4 (1.14%).

Conclusions

The center of the specialized pharmacy services; to enhance the patient's understanding of drugs, reduce inappropriate medication, to promote drug treatment optimization, to protect patients with drug safety and create a healthy city and safe community.

地點：藥物諮詢室

★用藥安全有五寶：①用藥諮詢 ②愛心貼 ③用藥指導 ④字體放大 ⑤用藥護照

用藥諮詢 如對用藥有任何疑問或是擔憂，都可以到藥物諮詢室來詢問藥師囉！

愛心貼 可愛的卡通圖像可方便您理解及記憶服藥時間囉！

用藥指導 印章為紅色粗體字樣，可提醒您需要特別注意的用藥：每次服用半顆 抗生素服用療程 請隔日使用

字體放大 藥袋字體放大讓您看得更清晰！放大內容資訊：①用法用量 ②藥名 ③外觀 ④適應症 ⑤警語/副作用

用藥護照 「用藥護照」可紀錄您的用藥資訊與疑慮，並利於存留您的疾病與用藥紀錄，避免重複用藥或不良藥物反應之事件發生。

藥師是您的好朋友！

請速醫囑使用 請隔日使用

請冷藏儲存 發熱溫度>38℃ 請使用藥水 CC

抗生素請服完療程 發熱溫度>38.5℃ 請使用錠劑 顆

每次服用半顆

台北市聯醫忠孝院區藥師中心 護健康藥安全

今天(1月15日)是一年一度的「藥師節」，在這特別的日子裡，到底藥師對市民的服務有那些呢？傳統的認知就是藥師只在調配藥品或簡單的諮詢服務，北市聯醫忠孝院區藥師是患者用藥的「守護神」，為民眾的健康把關。(圖說：中間是聯醫忠孝院區高木本院院長/藥劑科楊瑛碧主任)

藥師新價值 藥師心同理心 以北市聯醫忠孝院區為例，藥師們除了調配及簡單諮詢外，為民眾提供的服務還包括：藥袋字體放大、切藥服務、分裝七日或一月藥盒、藥物效期確認、藥物檢收、加蓋用藥
